

Cloud Manager Service (RCMS)

Robustel Cloud Manager Service (RCMS)

The next evolution of software delivery from Robustel

robustel

CLOUD MANAGER SERVICE
DEPLOY | MANAGE | CONTROL

Robustel Cloud Manager Service (RCMS) is a modular IoT cloud software platform compatible with all Robustel products.

RCMS is designed from the ground-up to empower Robustel customers to build their IoT Solution(s) in a manner that is scalable, cost effective and can evolve quickly with the market.

Designed to work hand-in-hand with RobustOS, RCMS unlocks the true potential of Robustel products giving customers the ultimate range of monitoring, management and control functions.

With it's modular design RCMS enables new APPs to be added to the platform without interfering with core behavior, to create new functionality and allow for integration with third-party software.

robustel
RCMS CLOUD

RCMS
BASIC

Monitor your fleet of Robustel devices from anywhere in the world

RCMS
ESSENTIALS

Manage and control your Robustel devices from any network or location

RCMS
ADVANCED

Secure cloud based VPN access to your Robustel devices and end devices

RCMS
FREE TRIAL

Any new Robustel device connecting to RCMS for the first time gets 3 months free

Included Features

| Device Overview Dashboard | Yes | Yes | Yes | Yes |
|---|-----|-----|-----|-----|
| Device Status & Statistics | Yes | Yes | Yes | Yes |
| Device Location (GPS or Cell) | Yes | Yes | Yes | Yes |
| Custom Report Generation & Export | Yes | Yes | Yes | Yes |
| Syslog & Debug Data | Yes | Yes | Yes | Yes |
| Over-the-Air (OTA) Provisioning & Updating | X | Yes | Yes | Yes |
| Zero-Touch & Bulk Provisioning & Updating | X | Yes | Yes | Yes |
| Configuration Management (CLI or GUI) | X | Yes | Yes | Yes |
| Remote Actions (Speed Test, I/O Control, etc) | X | Yes | Yes | Yes |
| VPN Access to Single/Group of Devices | X | X | Yes | Yes |
| Desktop Client to Site VPN Access | X | X | Yes | Yes |
| 5GB of pooled VPN Data included per month | X | X | Yes | Yes |

Empower your devices with Cloud Management

RobustLink

Monitor

The RobustLink App inside RCMS gives you visibility of your entire Robustel device fleet in a single location from anywhere in the world. View device status, signal strength, data usage and WAN details for any device connected to the platform at the touch of a button

Management Dashboard

Total Devices Online/Offline | Devices by Connection Type | Total Devices by Group | Total Devices by Model | Total Devices by Cellular Carrier

Individual Device Statistics

Online/Offline Status | Connection Type & Link Details | Signal Strength | Data Usage | Location (GPS, Cellular or Manual) | Installed Apps & Firmware

Remote Syslog

Enable/Disable Syslog features remotely and export them for analysis

Manage

Use the RobustLink App inside RCMS to access your devices remotely to change configuration parameters or send device commands through remote Command Line Interface (CLI) access. Maintain your fleet through Over-the-Air (OTA) updates for Firmware, Apps and Configuration files in bulk or for a single device.

Over-the-Air (OTA) Updates

Update Firmware, RobustOS Apps and XML config files

Remote Command Line Interface (CLI)

Configure any device connected to RCMS using the CLI without the need for a fixed/addressable IP Address.

Remote Reboot

Remote actions allow you to automatically reboot a batch of devices or a single unit with the press of a button.

RobustLink

RobustVPN

Control

Use the RobustVPN App inside RCMS to create a virtual LAN for your devices that can be accessed securely from anywhere in the world using the preconfigured desktop VPN client.

Access groups of devices through a single VPN

Configure VPN groups within RCMS to control the devices and users that are allowed to access your virtual network.

Controlled VPN Usage

Use RCMS to control when your virtual network is available. Configure your VPN to be always available or only when needed to reduce network traffic.

VPN Traffic Logging

VPN Traffic logs allow you to pinpoint problem devices quickly and efficiently.
